

CHICAGO AEROSOL™

Corrosion Inhibitors

Battery Protector/Corrosion Inhibitor — VIA-0024

Can Size:16 oz.

Net Weight:11 oz.

Description: VIA-0024 prolongs battery life by protecting battery terminals, cables and connectors against moisture and acid corrosion. When it is used on clean battery terminals, it provides a lead-free protective seal against fumes and corrosion. VIA-0024 resists heat-aging and keeps corrosive deposits from forming on protected metal parts. It dries quickly and is a great product to use after cleaning the battery with VIA-0026 Battery Cleaner.

Applications: Apply to Battery Terminals and Other Connections to Protect and Preserve

Physical Properties: *Color:* Red

Heavy-Duty Rust Inhibitor — VIA-0028

Can Size:16 oz.

Net Weight:11 oz.

Description: VIA-0028 is a long-term, heavy-duty rust inhibitor that protects and lubricates. It creates an insulating, waxy film that seals out air, salt and moisture. VIA-0028 will not crack. It is non-staining and will not harm paints, plastics or rubber.

Applications:	Cables	Elevators	Underground Installations
	Trucks	Bare Metal	Outdoor Equipment/Tools
	Cranes	Metal Parts	Air-Brake Release Springs
	Chains	Vehicle Doors	Off-Shore Drilling Equipment
	Pulleys	Battery Terminals	Pump and Hose Assemblies
	Forklifts	Aircraft Fuselages	Outdoor Electrical Connections
	Tractors	Machinery Storage
