

CHICAGO AEROSOL™

Paints & Coatings

Cold Galvanize — VIA-0013

Can Size: 16 oz.

Net Weight: 13 oz.

Description: VIA-0013 provides superior, long-term protection against rust and corrosion on ferrous bare metal and previously galvanized surfaces. Its galvanic action is equal to hot-dip galvanizing. VIA-0013 bonds easily to metal and works by acting as a sacrificial layer — so the zinc oxidizes instead of the metal. It can be used as a touch-up or primer for marred or scratched hot-dip galvanized surfaces, be painted over or used as a final protective coating.

Applications:

Tractors	Exhaust Stacks	Boats	Mufflers and Manifolds
Pipelines	Outdoor Furniture	HVAC	Construction Equipment
Weldments	Springs and Coils	Trailers	Automotive/Truck Bodies
Water Tanks	Metal Roofs/Gutters	Fencing	Repairs to Hot-Dip Galvanizing
Storage Tanks	Off-Shore Drilling Rigs		

Physical Properties: *Continuous Operating Temperature:* Up to 400°F

Contains: 99% Pure Zinc Metal

Color: Grey

Disc Brake Quiet — VIA-0023

Can Size: 16 oz.

Net Weight: 12 oz.

Description: VIA-0023 helps eliminate disc brake squeal and chatter by dampening vibrations that occur at the interface of the caliper and brake pad. It is compatible with ABS Systems. VIA-0023 is easily applied to new or existing brake pads.

Applications: Apply to Brake to Eliminate Squeaks and Squeals.

Physical Properties: *Color:* Red
